In June last year you received an explanatory leaflet explaining that your Parish Council was preparing a Neighbourhood Plan and in July a questionnaire inviting you to express your views on the future of Weston & Basford.

95% of respondents supported the draft vision

'We want the seven settlements which make up the Parish of Weston & Basford to retain and develop their own character and to continue to thrive as vibrant communities. We want them to evolve, grow and prosper in a sustainable way and to provide an outstanding quality of life for current and future residents of this parish'

Much background work has subsequently taken place in assessing local housing need for the plan area up to 2030 and a landscape and ecological appraisal is currently underway. We are now at the stage of formulating draft policies.
